## We Are The Victims

There  
are many  
people  
being  
cyber-  
bullied  
every day.

Two in  
five  
students  
get bullied  
in one  
week.

Phones  
and  
Internet

are more  
popular  
for  
bullying  
than going  
up to  
someone  
face to  
face.

If you  
wouldn't  
go up to  
someone  
and bully  
them to  
their face  
then why  
do it on  
the net.

What  
should we  
do about  
it? (Send  
us your  
ideas)
